Parallels Tools Installation Agent

Please wait
Installing Parallels Tools: 0%.

You will need to restart Linux to complete the Parallels Tools installation.

Run as root...

To start Parallels Tools Installation Agent, you must type the root password and select the command to get root privileges.

Username: parallels

Password:

Using: ☒ sudo
☐ su

OK Cancel

Start

I install the Parallels Tool for better interaction with the Host-OS.

Start the Tour
